## SPECIAL INSTRUCTIONS IF USING THE "STARTUP METHOD" TIME PERIOD

If you were in operation on February 15, 2020, but were not in operation between February 15, 2019, and June 30, 2019, you may choose one of two ways to calculate your First Draw PPP Loan amount.

The **first option** is to simply use payroll information for all of 2020 instead of 2019. If using this option, please select "2020" as your time period for question 1 above and then proceed following the instructions.

The **second option**, the "Startup Method", is to calculate your loan amount using your average monthly payroll costs (and Schedule C net income) for January and February 2020.

Fill out an IRS Form 1040 Schedule F for January and February 2020. The entries on the schedule must reflect all business income and expenses from those two months, with the exception that you must include only 1/6 of the amount of any annual depreciation and section 179 expense deduction attributable to investment made in those months, and you must include 1/6 of the amount of the 2020 depreciation deduction attributable to investment made in prior years.

Once completed, enter the amount from Line 9 on your Schedule F for Question 2 on page 1 of this worksheet. Note: save your Schedule F as you will be required to attach it when submitting your application.
