SPECIAL INSTRUCTIONS IF USING THE "STARTUP METHOD" TIME PERIOD

If you were in operation on February 15, 2020, but were not in operation between February 15, 2019, and June 30, 2019, you may choose one of two ways to calculate your First Draw PPP Loan amount.

The **first option** is to simply use payroll information for all of 2020 instead of 2019. If using this option, please select "2020" as your time period for question 1 above and then proceed following the instructions.

The **second option**, the "Startup Method", is to calculate your loan amount using your average monthly payroll costs for January and February 2020.

Compute January and February 2020 payroll costs and enter the relevant amounts on Page 1 Lines 2 a-f. You also must provide payroll records from those two months, your IRS Form 941 for the first quarter of 2020, and documentation of any employer retirement and group health, life, disability, vision, and dental insurance contributions made on behalf of employees.
